Verbally the two sets of criteria are distinguished by two words which on the physical level both mean "face". One of these, mien-tzd, stands for the kind of prestige that is emphasized in this country: a reputation achieved through getting on in life, through success and ostentation.

### **THE CHINESE CONCEPTS OF "FACE"**

China Pivots to Face an Imperfect Storm Even before the threat of a trade war, China's economy was steadily slowing as the bang to growth from increasing debt diminished, creating a heavy stimulus hangover as capacity excesses are worked out. Beijing knows the old playbook to fuel growth—housing, infrastructure, and credit—is tapped out.

In China and much of Asia, Face represents a person's reputation and feelings of prestige within multiple spheres, including the workplace, the family, personal friends, and society at large. The concept of Face can be understood more easily by breaking it down into three separate components: the individual view, the community view, and actions.
