Java SE Specifications - Oracle
Java is a general-purpose computer-programming language that is concurrent, class-based, object-oriented, and specifically designed to have as few implementation dependencies as possible. It is intended to let application developers "write once, run anywhere" (WORA), meaning that compiled Java code can run on all platforms that support Java without the need for recompilation.

Java (programming language) - Wikipedia
Java lies between Sumatra to the west and Bali to the east. Borneo lies to the north and Christmas Island is to the south. It is the world's 13th largest island.Java is surrounded by the Java Sea to the north, Sunda Strait to the west, the Indian Ocean to the south and Bali Strait and Madura Strait in the east.. Java is almost entirely of volcanic origin; it contains thirty-eight mountains ...

Resizable-array implementation of the List interface. Implements all optional list operations, and permits all elements, including null.In addition to implementing the List interface, this class provides methods to manipulate the size of the array that is used internally to store the list. (This class is roughly equivalent to Vector, except that it is unsynchronized.)
